## About Us

We were established in the year 2007 as one of the distinguished manufacturers and Exporters of technically advanced water treatment equipments. Under the able veneration of our director, Mr. Subodh Mohapatra, we are at the apex in the manufacturing of Reverse Osmosis Plant, Industrial Waste Water Treatment Plant, Biological Sewage Treatment Plant etc. With his industrious efforts and immense experience, we have set a strong foothold in the national and international water treatment equipments market. M/s Watersol technologies provides industry with total water management - from pretreatment, through process water/liquid and waste water treatment, to water recycle and recovery of valuable byproducts for reuse in process. Total solutions address concerns of customers by incorporating water conservation, pollution control, energy saving and reduced chemical consumption. Comprehensive services, including O&M and BOO/T contracts, deliver end benefit conveniently and economically, with single-point responsibility.

# WATER MANAGEMENT SYSTEM

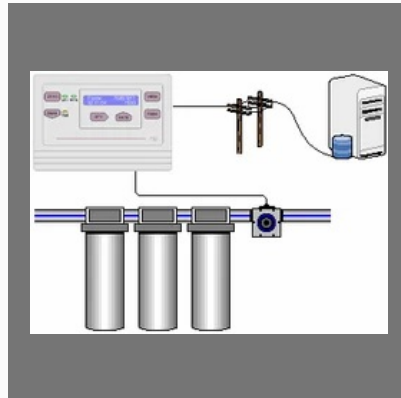

Boiler Water Chemicals

Cooling Water Chemicals

Domestic & Portable Drinking Water Purifiers

Water Quality Monitoring Instruments

# WATER TREATMENT CHEMICAL

Chemical Dosing System

Polyelectrolytes

Cooling Water Chemicals

Anti Scalants

# WATER TREATMENT SYSTEM

Packaged Sewage Treatment Plants

Ultra Pure Treatment Systems

Waste Water Treatment & Water Recycle Systems

## OTHER PRODUCTS

R O Plant

Sewage Treatment Plant

Hydro Pneumatic System

Water Softener

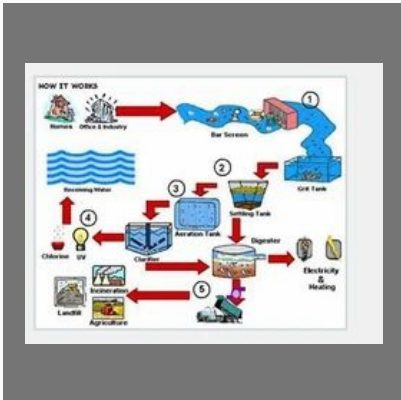

## OTHER PRODUCTS:

Clarifiers

Industrial Filtration

Water Management System

# Factsheet

Year of Establishment : 2010

---

Nature of Business : Manufacturer , MEP Consultant And Lab Services

---

Total Number of Employees : Upto 50 People

---
